VirTex:

Market Focus

VirTex is a trusted technology partner that provides strategic Electronic Manufacturing Services (EMS) to our customer base. VirTex increases the competitive position of your product with a smart and simplified regional supply chain solution across the production lifecycle by focusing on and reflecting your vision.

Markets Served:

- Automotive
- Aerospace & Defence
- Industrial
- Medical

Automotive

Providing customized solutions with a strong focus on design, tooling, plastic, metals, PCB assembly and test. In the automotive market, best in class quality counts, VirTex offers the lowest PPM rates and intense focus on manufacturing zero defect products.

Capabilities include:

- Navigation
- Connectivity
- Comfort
- Sensors
- Infotainment

What our customers say:

“World class, regional manufacturing. VirTex as a team were not just able to manufacture our control panel product, but provide very necessary engineering design enhancements to make much needed advancements.”

Medical OEM

Aerospace & Defense

The Automotive, A&D & Medical groups share a common expertise and highly regulated environment, cycles and traceability. With an emphasis on customer IP security, VirTex offers a standalone service for ITAR and other sensitive programmes.
